Subject: Importance of Tress in our life

Dear Sir,

I would like to bring your kind attention to my views and ideas on how trees play a crucial role in our life. People are being oblivious to the fact that trees are a miracle of nature that we should care and respect for. The planet is surrounded by trees and plants. They're important because they give us oxygen, store carbon, stabilize the soil and also give a life to flora and fauna. They are also means of obtaining tools, shelter, wood, paper and other things.

Due to frequent cases of deforestations and untreated trees they are depleting in number which is causing a misbalance in the nature cycle and the wildlife. This results in increasing pollution. Thus to stabilize the whole life system we need more and more trees and they are one source of true lifestyle.

I hope through your columns my voice can be heard.

Regards,
Xyz

Every state has a government agency that issue license this agency is called regional transport authority or RTO. Once we are issued the license we should be well aware of the traffic rules and road sense for careful

and safe driving to get safe from the road rage. We should be a responsible citizen and driver in our state.
